

## **My experience with Erasmus+**

My name is Özberk Özen and I am from Turkey. I would like to share my experience with Erasmus+ in Banská Bystrica at the Faculty of Arts, UMB. I met tons of new people from different cultures. I got to know new traditions and different lifestyle etc. Experiencing all these differences opened my eyes to understand others. To me it was magical.

Expect studying at English department, I also joined lectures at European cultural studies department. I met lots of great teachers and I had a lot of fun at their lectures. I learned lots of new stuff during those lectures. And thanks to Erasmus+ and lectures I improved my English level more.

During my free time, I had lots of fun time with my new friends and I will never forget them. We travelled around the country and did sightseeing of all historical place that made me happy. I accomplished most of my dreams during Erasmus+ such as bungee jumping, seeing Eiffel tower when I travelled to Paris, visiting colosseum in Rome etc. I hope to come back to Banská Bystrica for my master studies. I can't wait for it.

Berk (as they called me in Slovakia☺)
